Dear Society Organiser,

Please find enclosed details of Royston Golf Club's Society Packages for 2016.

Enclosed in this pack, you will find all the relevant information you require. Packages can be tailored to your individual requirements and you can be assured of a warm welcome from all at the Club.

Continued work to the course is carried out with an aim of presenting the course in the best possible condition every day of the year. The free draining chalk heathland allows trolleys to be used all year round and during the winter months the course is fully open and never uses temporary greens or tees.

We have six EZGO Electric buggies for hire which will be extremely popular for societies, so early booking with the Pro Shop is advised.

With Society packages commencing from only £16.00pp, Royston provides your Society with excellent value for money and our Chef is happy to cater for your needs. Please see menus enclosed.

Whilst Royston Golf Club does not insist on handicap certificates we would ask all players to observe the etiquette of the game to help others enjoy our fine course. **Texas Scrambles are not permitted.**

Society organisers are responsible for ensuring that all members of their society adhere to the current dress rules of Royston Golf Club.

Please call, should you require any further information or wish to make a booking.
We look forward to hearing from you.

Amanda Curnow
