

Dear Society Organiser,

Please find enclosed details of Royston Golf Club's Society Packages for 2010. Enclosed in this pack, you will find all the relevant information you require. Packages can be tailored to your individual requirements and you can be assured of a warm welcome from all at the Club.

Extensive work has been done on the course, with £80,000 invested on upgrading the irrigation system, numerous bunkers being modified and the free draining chalk heathland allows trolleys to be used all year round. During the winter months the course is fully open and never uses temporary greens or tees.

We have four EZGo Electric buggies for hire, which will be extremely popular for societies, so early booking with the Pro Shop is advised.

With Society packages commencing from only £15, Royston provides your Society with excellent value for money and our excellent caterers will provide you with some tantalising dishes and are happy to cater for all your needs.

Please call, should you require any further information or wish to make a booking. I look forward to hearing from you.

Sean Clark
Golf Club Manager
